SIDE B // BACK — THE ACCUSTOM STANDARD & CONSULTATION CTA (3.5" x 2.0" TRIM)

WHY HOMEOWNERS TRUST ACCUSTOM CONSTRUCTION

THE ACCUSTOM STANDARD

How every remodel, structural repair, and custom carpentry build operates:

DRAWING // STD-03
LEAD: AJ MALONEY

01 Written Line-Item Scopes (Zero Vague Allowances)
Every project begins with an on-site measurement walkthrough by AJ Maloney and an itemized written scope detailing labor, materials, and sequencing before work starts.

02 Protected Floors, Dust Containment & Daily Job-Site Reset
We treat occupied homes with discipline—isolating active work zones, protecting floors and adjacent rooms, and sweeping tools and debris clean at the end of every day.

03 Documented Change-Order Discipline & Milestone Walkthroughs
If hidden framing or subfloor issues emerge behind walls, we pause, show you the condition first-hand, and price options in writing before proceeding.
